

Increase Your Sales, Skyrocket Your Confidence, Make Your Company First In Your Customers' Minds, Create Compelling & Profitable Presentations, Always Speak With Clarity (And Even Communicate Better with Your Family!)

In our live, two-day event (and you have never been to a speaking workshop like this one), you'll learn and practice the tools and tips you need that they didn't teach you in school (law school, seminary, MBA classes, teacher training, real estate classes, military school or whatever school you went to) that will help you make your message motivate your listeners to action.

"There's gold in them there words" of yours! (Paraphrasing the old-time movie prospectors!) Learn to mine the gold of increased sales. Discover the gold in customers and clients who can't resist the power of your presentations. Mine the gold in your own relationships with family and friends! Find the gold in conveying a message that motivates your customers, your students, your congregation, your family.

Our small workshop size (just 10 total) and small breakout sessions will give you a chance to practice and master what we're teaching. If you are already a pro, we're ready for you, too, as we will go in deep on the ONE ANCIENT SECRET practiced by the great speakers, teachers and orators of history past and present. (And when current leaders don't use this skill well, they become the target of jokes on the late night comedy shows.)

Here are some of the things we'll cover in our two days:

- *The one question you must answer for your audience right away or they'll be working on their mental grocery list while you speak.
- *Discover (and learn to master) your individual secret that separates you from every other speaker out there.
- *The surprising techniques of a good speaker that you need before you even open your mouth to say a single word.
- *The power of crafting a story: finally knowing what to keep and what to lay aside.
- *The strength and techniques of "Intentionality" to have the exact story you need exactly when you need it.
- *How to incorporate much needed down-time into every presentation.
- *Experienced (23 years) and intuitive coaching that gently "draws out" your innate skills.

What Others Say About Our Workshops:

"I think my mind-set has been permanently altered by this event. The breadth and depth of your knowledge and your passion to share it are simultaneously humbling and inspiring."

-Liz, College Instructor, Arizona
